Perfect 400 with Capapie

Dear Shooters,

With great pride we would like to inform you that a 15 year old girl from Kolkata, Mampi Das shot the highest possible score of 400/400 in the Women's 10m Air Rifle at the National Selection Trials at Pune, India on 2nd September 2012. What makes it even more special for us is the fact that this very promising shooter trusted and used our rifle clothing to shoot this great score.

This achievement is a big motivation for the team Capapie which takes utmost care in developing high performance clothing to help shooters achieve their goals.

We wish Mampi Das and all the shooters, all the very best for their future competitions.

Capapie rifle kits which are already a big hit with the top Indian shooters are now also becoming very popular among the shooters from many other countries. We hope more and more shooters could make use of our perfection and high quality.
